Distributed Systems & Blockchain in the News

- 05.12.2022: Sign Everything [\[link\]](#)
 - “It will be easier for a student to prompt ChatGPT to write the essay than to write it themselves”
 - Also video and audio
 - We live in a world where content is created by machines and we are not able to tell the difference
 - “I think we will need to sign everything to signify its validity” → web3 wallet
 - 05.12.2022: Stack Overflow temporarily bans answers from OpenAI's ChatGPT chatbot [\[link\]](#)
- 09.12.2022: Exclusive: SBF secretly funded crypto news site [\[link\]](#)
- 09.12.2022: FTX Contagion [\[link\]](#)
 - A very nice overview
- 05.12.2022: What in the Ethereum application ecosystem excites me [\[link\]](#)
 - 1. Money
 - 2. DeFi
 - 3. Identity
 - 4. DAO
 - 5. Hybrid applications
- 05.12.2022: You might not need a CRDT [\[link\]](#)
 - CRDTs only needed for P2P and where one does not have a single central authority
