Distributed Systems & Blockchain in the News

- 30.09.2023: nChain Group CEO resigns [[link](#)]
 - “I have also reported that I have found compelling evidence that Dr Craig Wright has manipulated documents with the aim to deceive the court he is Satoshi.”
- DeFi / Web3 Hacks Last Week
 - 25.09.2023: Mixin Network hack drains \$200M from mainnet assets [[link](#)]
 - 25.09.2023: Huobi Global hacked for \$7.9M: Report [[link](#)]
- Lecture 1, in the news:

Blockchain in the News

- 09.09.2023: Vitalik Buterin's Twitter account hacked to promote crypto scam [[link](#)]
- Update [[link](#)]: “Finally got back my T-mobile account (yes, it was a sim swap, meaning that someone socially-engineered T-mobile itself to take over my phone number).”
- 25.09.2023: Quadlets might make me finally stop using docker-compose [[link](#)]
 - Quadlets generate based on a config file, a systemd config file
 - My personal opinion: this will not stop me using docker-compose for local development
