Distributed Systems & Blockchain in the News

- 06.10.2023: THORSwap temporarily shuts down web interface as FTX hacker tries to launder \$131 million [\[link\]](#)
- 06.10.2023: Gitcoin DAO gaffe sees \$500,000 in GTC tokens lost forever [\[link\]](#)
 - Tokens meant to fund a work stream were sent to the protocol's contract address by mistake – gone
 - Reminder: once gone, gone forever, for such transactions ALWAYS send first a small amount, if this works then you can send the rest.
- 04.10.2023: WebAssembly Docker Container [\[link\]](#)
 - Marco Kuoni, student from the distributed systems lecture & CTO [lemonbrain](#)
 - Classic Docker vs. WASM Docker
- 29.09.2023: Encrypted Client Hello - the last puzzle piece to privacy [\[link\]](#)
 - Alternative over [DNS?](#)
 - Make stuff and break stuff: 1.1.1.1 lookup failure [\[link\]](#)
